Identification #: 044947

Dear Dr. Schibler:

The American Board of Surgery (ABS) is pleased to inform you that you have successfully completed the 2010 Recertification Examination and will now be recognized as Recertified in Surgery.

The enclosed score report provides you with specific information regarding your score, the passing score, the average score for the total group, and a keyword/phrase listing of the questions you answered incorrectly.

Your certificate will be sent to you in three to six months, once it is engrossed with your name, date of issue, certificate number, and validity date. The number on your recertification certificate will be the same number which is on your original certificate. Please contact the Board if you do not receive your certificate within the next six months.

Your certificate will be valid until July 1, 2021, providing you comply with the requirements of the ABS Maintenance of Certification (MOC) Program, which requires ongoing professional development and self-assessment activities over the ten-year certification cycle. Further information regarding MOC is enclosed and is also available on the ABS website, www.absurgery.org. Please notify the Board Office of any changes to your contact information.

The ABS will submit your certification information to the American Board of Medical Specialties (ABMS), which will contact you directly regarding your listing in both the print and online versions of the Directory of Board Certified Medical Specialists.

Congratulations and best wishes for continued success.

Sincerely yours,

Frank R. Lewis, Jr.

Frank R. Lewis, Jr., M.D.
